

- **Fire Safety Services (UK) Limited relocate Head Office**

Fire Safety Services have recently relocated their Head Office to Woburn Road Industrial Estate in Kempston, Bedford.

“This move will allow our business the room we need to continue our expansion” said Managing Director David Murfitt.

Fire Safety Services offer Fire Safety Training courses to Customers' at their new facility as well as on site at Customers' premises, along with IFEDA Extinguisher Service Engineer courses and examinations being scheduled throughout the year.

Stocks of Fire safety equipment are held in our stores, thus ensuring fast response to customers' needs, backed by next day delivery from carefully selected suppliers of quality products.

A fleet of new vehicles ensures reliable service from Fire Safety Services. A major investment over recent years means we can offer reliability to our clients. Fast response to call outs and urgent customer needs gives us the edge over the majority of our competitors.

A team of fully qualified and certified Maintenance Engineers and sales Engineers deliver a high quality of service to Customers'. Operating an ISO 9001:2000 Quality System, complimented by BAFE approval and adopting BAFE schemes for Technicians means we offer the best service possible.

Membership of FETA (Fire Extinguishing Trades Association) and IFEDA (Independent Fire Engineering and Distributors Association) ensures we are always at the forefront of changes affecting the services and products we offer.
